1 - Optional Codecs - Either ON2 Technologies FLIX encoders or Adobe Flash (8.0 or greater recommended) for Flash Video and SWF are required to be installed.

2 - Pixel Tools, for encoding MPEG 1, 2 (reading natively supported)

3 - Flip 4 Mac required for Windows Media encoding support on OS X

Basic Metadata support - MediaRich can extract size, bit depth, frames and time

Enhanced Metadata - Complete extraction and embedding of metadata with field handlers (see documentation for details)

QuickTime (7.0 or above) must be installed to activate video features
